

All your motion detection needs.

Wired Grade 2 | wall mount models

A security system is only as good as its ability to detect. Your reputation, your business, your future, and your customers' wellbeing, all depends on making the right choice of motion detection.

Guardall's new range of motion detectors is our highest performing, most reliable, easiest to install range of detectors, ever. Grade 2 wired wall mount detectors offer a choice of 15m PIR, 20m quad PIR or 20m dual technology devices.

GP15 – 15m PIR

- 15m / 90° volumetric coverage
- Dual element pyro
- Optional PetWise mode
- EN50131-2-2 Grade 2

GQ20 – 20m Quad PIR

- 20m / 90° volumetric coverage
- Quad element pyro
- Optional PetWise mode
- EN50131-2-2 Grade 2

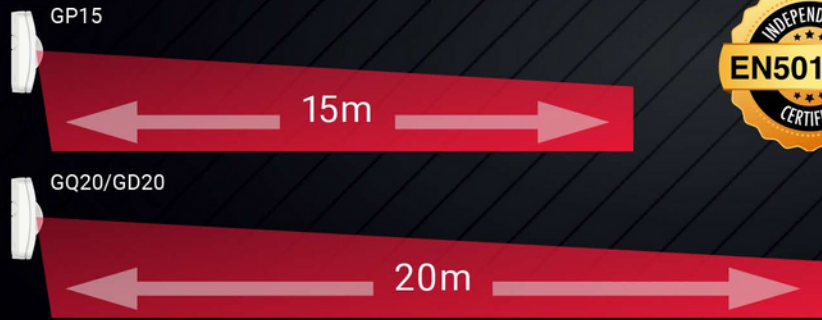

GD20 – 20m Dual Tech

- 20m / 85° volumetric coverage
- Quad pyro + K-band microwave
- Dual tech/PetWise/CloakWise modes
- EN50131-2-4 Grade 2

Outstanding catch performance

Guardall's design team started with the perfect optical geometry for motion sensing, and developed a beautiful minimalist low-profile design that celebrates, rather than hides, it's optical prowess.

Note: Coverage patterns differ when in PetWise mode.

Reliability you can depend on

We understand that reliability underpins the fundamental trust in an intrusion alarm system and has developed this range to be our most reliable, most resilient, most robust and most trustworthy range of motion detectors, to date.

Selectable sensitivity

Digital temperature compensation

Active white light rejection

Front-loaded fully sealed electronics

Flexible mounting points

Adjustable terminal block

EN certified selectable pet immunity option

Install in seconds

Speed up your installations and spend less time installing devices. The series has been designed with the installer in mind and includes a host of installer-friendly features, making it easier to install and commission.

Applications

Guardall motion detectors excel in a wide variety of professional security applications.
